

# asora

## Software for the modern family office

### About Us

Asora is a global software with multi-language support, helping Ultra High Net Worth Individuals (UHNWIs) and family offices track assets, automate data capture, and deliver on-demand reporting on web and mobile.

"The time savings alone have been substantial. Having accurate and up-to-date information has allowed us to be more proactive — identifying risks and opportunities earlier and making faster decisions."

– Donald Campbell, Capstone Family Office
